Virtual Labs Update: Practice Labs User Group Discussion

Webinar Chat Q&A – December 11, 2020

How do you synchronize the labs to the book? I imagine you need to pick certain labs to align with certain chapters to the book – or do you?

- You can do one lab, or all of them in a bundle. See David Nimri's demonstration in webinar recording.

Can students complete labs multiple times?

- Yes, as many times as you would like, it's managed through Canvas assignments

Did I hear correctly that Practice Labs provides virtual machine spin ups too?

- Yes

Does anyone have resources on remote CIS internship your students are currently engaging in?

- https://www.hacu.net/hacu/Corporate_HACU_Internship_Program.asp
- I (Kasey Nguyen) currently have 5 interns with DoD under a grant, but see <https://godefense.cpms.osd.mil/internships.aspx>

How can I get an account to try this?

- The Inland Empire region purchased site licenses for the whole region to share. Schools in this area should contact Susanne Mata at smata@sbccd.cc.ca.us
- For South Central Coast schools, contact Paula Hodge at Paula.Hodge@canyons.edu
- For all others, contact Chrissy Ybarra at cybarra@syned.org
